PLEASE NOTE: WE ARE UNABLE TO ACCEPT CREDIT OR DEBIT CARDS. MAKE CHECKS PAYABLE TO THE BOLLES SCHOOL AND IN THE MEMO LINE NOTE SINGAPORE MATH INSTITUTE.

FAILURE TO REMIT FEE IN FULL BY MAY 2, 2011, WILL RESULT IN FORFEITURE OF YOUR PLACE IN THE COURSE.

SINGAPORE MATH INSTITUTE

40 INTENSE HOURS OF
CORE CURRICULUM CONCEPTS

AN INSTITUTE, NOT A WORKSHOP,
WHERE TEACHERS ARE TAUGHT
HOW TO TEACH MATH

JUNE 20-24, 2011

THE BOLLES SCHOOL
JACKSONVILLE, FL

[WWW.BOLLES.ORG](http://www.bolles.org)

WHO SHOULD ATTEND?

Administrators, curriculum supervisors, math coaches, teachers, and parents who want to learn mathematics for meaning versus rote memorization.

WHAT IS THE SINGAPORE MATH INSTITUTE?

It is an institute, not a workshop, where teachers are taught how to teach math, learning the concrete-pictorial-abstract approach to teaching all mathematical concepts.

WHY THE SINGAPORE MATH INSTITUTE?

"In Singapore, a substantial amount of curriculum time is devoted to teaching and learning mathematics in the early grade levels to build a strong foundation for the acquisition of mathematical knowledge and skills in later years. However, providing curriculum time alone is not enough. Effective learning of mathematics requires a coherent and well structured syllabus, excellent instructional materials, and good teachers who use sound pedagogical strategies that are developmentally appropriate."

(The Singapore Model Method for Learning Mathematics 2009)

Singapore Math provides the structure for a solid math program that develops solid number sense. To support this curriculum we have developed an intensive five-day, 40-hour institute that teaches teachers sound pedagogical strategies to use in their classrooms. No matter what math program a teacher uses, this institute will build the conceptual knowledge behind every mathematical computation. Teachers will leave understanding the whys and hows behind the mathematics.

WHERE?

The Bolles School
7400 San Jose Boulevard
Jacksonville, FL 32217

WHEN?

June 20 - 24, 2011
8 a.m. - 4 p.m.

PROGRAM SCHEDULE

8 - 10 a.m.	Group Session
10:30 - Noon	Grades K-3 and Grades 4-6 Break-out Sessions
Noon - 1 p.m.	Working Lunch
1 - 4 p.m.	Grade Level Work

INSTRUCTORS

SARAH SCHAEFER

Sarah has a master's degree in mathematics education from Boston University, and ten years of experience teaching mathematics in grades K - 12. Currently, Sarah teaches pre-calculus in addition to serving as a curriculum specialist for grades pre-k through six. Outside the classroom, she serves as a math consultant in implementing Primary Mathematics. Sarah has spoken locally and nationally on the program and how to successfully implement the program in a school.

CAROL FINDELL

For more than 30 years Dr. Findell has served as a mathematics educator at the preschool through college levels. She has served as editor of the National Council of Teachers of Mathematics (NCTM) publication Student Math Notes, and was author of two World's Largest Math Events. Dr. Findell was also a consultant, teacher, and/or curriculum developer for two WGBH Annenberg Professional Development series: Learning Math and Teaching Math. She is co-author of many books, and is a frequent speaker at state, regional, and national conferences. Dr. Findell is a member of the Massachusetts Mathematics Educators Hall of Fame.

REGISTRATION AND FEES

Registration begins December 1, 2010

Institute Fee: \$795

A \$200 non-refundable deposit is due with registration, with full payment due by May 2, 2011. All payments are non-refundable, but transferable to other teachers within the same district.

Fee includes lunch and a snack each day as well as instructional materials.

If assistance is needed with accommodation arrangements, contact Sarah Schaefer at singaporetrainer.sarah@gmail.com.
