

Take turns drawing a card to fill the board.

Can you make 5 true equations?

$$1 \quad \square \quad - \quad \square \quad = \quad 10$$

$$1 \quad \square \quad - \quad \square \quad = \quad 12$$

$$1 \quad \square \quad - \quad \square \quad = \quad 15$$

$$1 \quad \square \quad - \quad \square \quad = \quad 13$$

$$1 \quad \square \quad - \quad \square \quad = \quad 16$$
