

Why choose Dimensions Math® PK–5?

- Dimensions Math PK–5 is our flagship curriculum. It was created by our team of experts to provide a comprehensive, supported, and beautiful Singapore math experience.
- Cohesive PK–5 series, which continues through more advanced grades in our Dimensions Math 6–8 program.
- Substantial teaching resources: Teacher’s Guides, Home Instructor’s Guides, video lesson subscriptions, and more.
- Vibrant illustration and clean design engages students and makes teaching easier.
- Excellent value and accessible pricing.

Why choose Primary Mathematics?

- Primary Mathematics is the original, world-renowned Singapore Math curriculum. It put Singapore on the map of international math achievement over 20 years ago.
- Training, support, and other resources due to wide adoption over many years.
- Different editions align with specific standards:

Primary Mathematics U.S. Edition

Almost identical to the original program from Singapore, but uses U.S. measurements and currency.

Primary Mathematics Standards Edition

Revised to meet the California Public School standards prior to Common Core.

Primary Mathematics Common Core Edition

Revised to more closely align with Common Core.

Primary Mathematics 2022 Edition

Currently in soft launch. Focuses on standards alignment and differentiation. Note: Content is entirely new, marks major departure from previous Primary Mathematics editions.

The takeaway:

- All are excellent Singapore Math programs that instill deep conceptual understanding and computational fluency.
- Dimensions Math PK–5 is generally the best fit for students and educators today.
